DETAILS

POLICY/PROGRAM IMPACT

<p>Lincoln Parks & Recreation (LPR) proposes to enter into a cooperative agreement with the Nebr. Dept. of Environmental Quality (NDEQ) for the planning, consulting/engineering/design and construction activities and costs associated with the Water Quality Rehabilitation Project at Holmes Lake in Lincoln, NE. Under this agreement, NDEQ will commit \$1,000,000 from Section 319 Grant Funds (Nonpoint Source Management Program) towards the costs associated with the rehabilitation of Holmes Lake. In addition, NDEQ will attempt to obtain and contribute more funds (state and federal) as they become available.</p> <p>Because the terms of the agreement are in excess of one year, a City Council Ordinance is required to enter into the agreement.</p> <p>With this agreement, NDEQ will agree to reimburse LPR for costs associated with the planning, consulting/engineering/design and construction activities and any other costs associated with the lake rehabilitation project. In turn, LPR shall budget for costs associated with the project and provide a copy of a resolution, motion or similar action duly adopted by the governing body of the City which states: (1) That it has the intention and ability to finance a portion of the cost of the project. It is noted that LPR has identified \$800,000 towards the project in the FY 2002-03 and 2003-04 CIPs; (2) That it designates a person as the official representative of the City to act in connection with the project (J.J. Yost, LPR Planning/Const. Manager); and (3) That it agrees to operate and maintain, as its sole expense, or cause to be operated and maintained, the property/facility developed pursuant to the agreement.</p>	POLICY OR PROGRAM CHANGE	<input checked="" type="checkbox"/> NO <input type="checkbox"/> YES Renovation of Holmes Lake & Park
